

1. We obtain approval from the local water authority on your behalf by processing a Sewer Connection Application with CAD Drawings.

2. We design a Traffic Management (TM) drawing in conformance with the New Road and Streets Work Act, 1991.

3. We meet local authorities and water companies to agree project timelines.

4. We communicate with neighbouring properties and businesses about the planned work.

5. We create an application and obtain a Section 50 Road Opening Licence.

6. We undertake road excavation and pipe work installation / reinstatement in conformance with Thames Water and Local Authority Regulations.

7. We provide evidence of the workmanship to the water companies and councils and obtain certification.
